# RIPLEY ST THOMAS

## Key Stage: 5

### **Subject: Economics**

**Aims of the subject:** To quote famous economist Alfred Marshall, 'Economics is a study of the economic aspects and conditions of man's political, social and private life; but more especially of his social life. The aims of the study are to gain knowledge for its own sake, and to obtain guidance in the practical conduct of life, and especially of social life.'

Economics students will learn how, as individuals, households, firms and government, we get the things we want to buy and the services we need and want, making choices in order to satisfy our unlimited wants with scarce resources. They will gain a better understanding of the world around them as well as a qualification valued highly by all universities and employers.

# A-Level Examination Board: AQA

## **Assessment Overview:**

Three modules, each worth 33.3%

- Unit 1 Markets and market failure
- Unit 2 The national and international economy
- Unit 3 Economic principles and issues

Summer		
term, HT2		

**Enrichment opportunities:** In Y12 students can enter the IFS Student Investor competition, giving them an insight into the stock markets and the interaction of demand and supply that determine prices. Students are also encouraged to enter essay competitions and apply for relevant work experience.

**Suggestions for wider reading:** An extensive reading, browsing and viewing list is to be found on the departmental Firefly <u>site</u>. Good places to start include the excellent EconPlusDal <u>YouTube Channel</u>, Tutor2U <u>economics blog</u> and the economics and business pages of the broadsheet newspapers and The Economist magazine. Relevant and interesting economics books are plentiful; good authors to look out for include, in order of approachability, Tim Harford, Steven Levitt, Ha Joon Chang and Michael Lewis.
