What is the Pupil Premium?

The Pupil Premium is additional funding which is allocated to schools on the basis of the number of pupils who have been eligible for free school meals (FSM) at any point over the last six years (known as 'Ever 6 FSM) or have been in local authority care at any point. It is also available for children of service personnel. It is aimed at addressing the current underlying inequalities which exist between children from disadvantaged backgrounds and their more affluent peers.

The DfE has given us the freedom to use the Pupil Premium grant as we see fit, based upon our knowledge of our pupils' needs. However, we are accountable for the use of this additional Pupil Premium funding.

The purpose of the Pupil Premium Policy

Statistics indicate that in England and Wales there is a significant gap in the academic performance (attainment and progress) of pupils who receive free school meals (and/or who are looked after or are previously looked after) and those who are not. On average, they underperform academically compared to their peers. The reason for this gap is complex but it should be noted that many disadvantaged pupils (DP) do exceptionally well in school.

As such, we have used the Pupil Premium funding in a number of different ways, as outlined in this document. The grant has been used to either expand existing initiatives or to fund new strategies to provide support, intervention and enrichment activities. We will also make sure decisions about the spending of Pupil Premium funding is based on educational research and that data analysis and knowledge of children is used to identify barriers and individualise intervention.

This document is a strategy for the 11-16 provision at Ripley St Thomas Church of England Academy. Further provision and arrangements are made in the sixth form through bursary applications in Years 12 and 13. Please contact the sixth form team for more information on this.

Headlines

The progress of disadvantaged pupils at our school is significantly above those non-disadvantaged pupils nationally at the same starting point. Thirteen percent of our 2018-19 leavers qualified for the Pupil Premium funding.

A very strong three year trend in the improvement of progress of disadvantaged pupils is evident at the school, as can be seen in the table below.

The gap between disadvantaged pupils and those non-disadvantaged has narrowed significantly in 2018/19.

The percentage of disadvantaged pupils at Ripley St Thomas achieving grades 9-5 in English and Maths (46%) is higher than the national average for non-disadvantaged pupils (42.7%) achieving those grades.

Over two thirds of pupils qualifying for the pupil premium achieved five standard passes (9-4) including English and Maths. This continues to improve.

The attendance data shows a lower gap range between disadvantaged pupils and nondisadvantaged than is evident nationally.
