There's historical proof a guy named Jesus walked on the earth but was he really performing miracles?

Did he actually rise from the dead?

And was he truly the prophesied saviour he claimed to be?

Lee Strobel found it all hard to believe, and his doubts led him to ask the tough questions and dig into the real evidence to see if the Bible's claims and Jesus's words were true.

This book provides scientific data, expert testimonies and interviews, cross-religious comparisons and archaeological proofs Lee discovered during his investigation.

The conclusion he finally came to about Christianity changed his life forever.

The Case for Christ Student edition is written for children ages 12 and older.
