

GCSE BIOLOGY

Y11 NEWSLETTER OCTOBER 2022

DEAR PARENTS/GUARDIANS

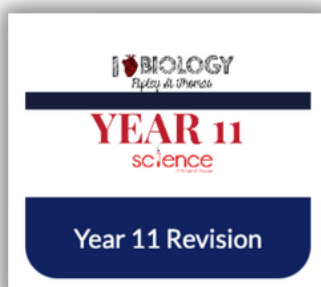

Welcome to the new academic year, and a warm welcome back to GCSE Biology. I write to remind you of useful information about the GCSE Biology course, and resources that your child has access to enabling them to make as much progress as possible. If you have any questions please do not hesitate to get in touch via Parentline.

MRS K PINDER
SUBJECT LEADER, BIOLOGY

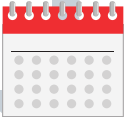

Your child should still have resources from Year 9 and Year 10. It is important they keep these somewhere safe at home and look after them, as they will be necessary for revision.

This year your child should have a red exercise book and a clear plastic wallet in which to keep this, along with any tests/revision resources/practicals.

Click the link below to find resources from Year 9 and Year 10 which contribute to Paper 1.

ASSESSMENT DATES:
wb 21st November 2022
Christmas Assessment
Topics will include:
Paper 1 content

FIREFLY:
Firefly is populated with a wealth of resources to support revision, follow this link:
